PROJECTS

Personal Portfolio Website
HTML, CSS, JavaScript

Live on:
https://CartCane.github.io/portfolio

Description
- Designed and developed a responsive website to showcase personal projects and skills.
- Implemented clean UI/UX principles and deployed on GitHub Pages.

ToDo List Web App
React.js, JavaScript, HTML, CSS, Git, GitHub Pages

description
- Built a responsive and interactive ToDo list application using **React.js**, allowing users to **add**, **edit**, and **delete.**
- Utilized **React Hooks** (useState , useEffect , useRef) to manage state, side effects, and input focus control.

Eat N Split Web App
HTML, CSS, JavaScript and React.js

Live on:
https://CartCane.github.io/eatNsplit

Description
- Developed **EatNSplit**, a responsive React web app to split bills and track shared expenses among friends.
- Designed a **user-friendly interface** to manage payments, balances, and real-time bill calculations.

Blog Web Application
Node.js, Express.js, EJS, PostgreSQL

Description
- Built a full-stack blog platform where users can create, view, and delete blog posts.
- Integrated **PostgreSQL** as the relational database and managed queries using **pg** library.

Book Notes Web Application
Node.js, Express.js, EJS, PostgreSQL, Axios, Open Library Covers API

Description
- Created a full-stack web app for storing personal book notes, inspired by Derek Sivers' reading site.
- Built features to add, view, edit, and delete book entries with PostgreSQL as the persistent database.
